1st International Conference on Artificial Intelligence and Smart Vehicle

Proceedings by Springer Communications in Computer and Information Science (CCIS)

CCIS · Springer

25 & 26 JANUARY 2023

ICAISV-2023

A hybrid conference! You may choose to attend in-person or virtually

Amirkabir University of Technology (Tehran Polytechnic), Iran

TOPICS

- Artificial intelligence methods in vehicles systems
- Machine learning applications on car, driving, and pedestrian data
- Safety systems for vehicles, cyclists, motorcyclists, and pedestrians
- Intelligent transportation systems
- Smart roads
- Driver assistant systems
- Image processing on in-vehicles and roadside cameras
- Electric & hybrid electric vehicles
- Connected vehicles
- Autonomous vehicles
- Safety and comfort in autonomous vehicles
- Smart applications for driver identification, driver evaluation, safety support, vulnerable users protection, accidents analysis, public transportation, freight transportation, Hazmat transportation
- Legal and insurance issues of smart cars
- Artificial intelligence for vehicle manufacturing, designing, and marketing

IMPORTANT DATES

- **Full Paper Submission:**
  22 October 2022
- **Notification of Acceptance or Rejection:**
  21 December 2022
- **Conference & Workshops:**
  25 & 26 January 2023
